

Welcome to the 6th newsletter of the Interreg MED  
EnerNETMob project!

EnerNETMob highlights

EnerNETMob pilot showcase at E4SM 2021

The 4<sup>th</sup> European Forum for Energy and Smart Mobility was dedicated to innovation with a special focus on greening the energy and transport value chain, the market revolution and the digital transformation of infrastructures and services. During E4SM 2021, Capenergies launched the EnerNETMob small-scale e-mobility demonstration unit for logistics in the agri-food sector, combined with renewable energies. Learn more [here!](#)

EnerNETMob at the Circle the MED Forum 2021

EnerNETMob participated in the Circle the MED Forum 2021 with a session focused on "Smart City and Electro-Mobility Solutions towards Climate Neutrality". 200 participants joined the event during which a highly diverse and distinguished panel from the north and south Mediterranean presented their ambitious ideas and projects to support cities' green and digital transition. EnerNETMob at the ECOMM 2021

A dedicated session on EnerNETMob "Mediterranean Interregional Electricity Networks for low-carbon intermodal and long-distance transport systems" was organized in the frame of the European Conference on Mobility Management 2021: THE meeting place for Mobility Management practitioners and experts to exchange on the beginning of a New Era at European level. Learn more and watch the recorded video [here!](#)

EnerNETMob at the CIVITAS Forum 2021

2021 CIVITAS Forum was the ideal opportunity to hear from the cities, people and projects driving innovation in smart, inclusive and sustainable mobility. This year edition made use of a hybrid format, combining online and onsite activities. EnerNETMob participated as an online exhibitor presenting its achievements to city representatives, policymakers, practitioners, planners, NGOs, and academics joining the Forum.

EnerNETMob at the POLIS Conference 2021

The POLIS Annual Conference 2021 provided an opportunity for cities and regions to showcase their transport achievements to a large audience of mobility experts, practitioners and decision makers. EnerNETMob participated as an exhibitor, having the chance to interact with one of Europe's most dynamic clusters within the field of mobility and exchange on good practices and ideas focused on innovation, sustainability and co-creation.

EnerNETMob Open Days

EnerNETMOB Open Days in Albania

On 26 October a Regional Open Day was organized in Albania, attended by various actors in the field of electro-mobility. Valuable contributions to the spread of electric transport and the reduction of CO2 emissions were presented. On the other hand, it was stressed out that the lack of relevant legislation supporting e-mobility in the region remains a challenge to be addressed. Learn more about the event [here!](#)

EnerNETMob Open Day in Port of Bar

On December 21st a joint event of EnerNETMob and SuMo project was organized in premises of Port of Bar. The event aimed at the promotion of e-mobility and green solutions in transport and the contribution of Port of Bar in the EU values on sustainable transport, less air pollution, environmental protection. Through SuMo project, a hybrid bus for users in free zone of the port is to be procured. Learn more about the event [here!](#)

Save the date

EnerNETMob Final Conference

Don't miss our final Conference taking place on 8<sup>th</sup> April in Marseilles. The outcomes of the project will be presented in roundtables focusing on land-sea intermodality, shared mobility, urban logistics and coupling between renewables energies and electromobility. Save the date and stay tuned for more details. Registration will open soon!

Join the EnerNETMob network

EnerNETMob counts 16 partners from 12 Mediterranean countries: Greece, Malta, Italy, Cyprus, Albania, Croatia, Slovenia, Portugal, Montenegro, Spain, France and Austria, driving the growth of electro-mobility solutions in the Mediterranean region. Join our network!
